

Create Video Training Materials

Project Title	Create Video Training Materials
Project Summary	Use your video creation and editing skills to promote Government transparency and disclosure
Country	United States

Project Description

Seeking a talented and creative videographer who can assist in the creation of a training video that helps federal employees understand the Freedom of Information Act (FOIA), and their role in responding to requests for agency records. The Applicant should be able to gather relevant information to create training materials that promote awareness, interest and understanding of FOIA and its impact. The Applicant will work closely with FOIA Government Specialists to design and develop effective and compelling training materials that reflects FOIA in the government.
